THE CITY OF WIXOM 2009 ROAD MAINTENANCE PROGRAM HELPER BOULEVARD IMPROVEMENTS

As part of the City's annual road maintenance program, road repairs will be made along Helper Boulevard. This work is scheduled to begin in late May and completion is anticipated in July. The work will consist of removing and replacing the existing asphalt pavement and base material, with some curb & gutter repairs and minor storm sewer improvements. The existing sidewalk ramps will be reconstructed to be ADA compliant, and new sidewalk will be installed where there are currently gaps. 2-way traffic will be maintained at all times, but delays can and will likely occur. Some driveways may be closed temporary as repairs are being made. We ask for your patience during this construction project. Please excuse the inconvenience.

Additional information, including project updates and frequently asked questions, can be obtained from our website:
