The City of Wixom 2010 Road Maintenance Program Oak Creek

As part of the City's annual road maintenance program, road repairs will be made on Oak Creek Drive. This work is scheduled to begin in early June and completion of the roadwork is anticipated by early July. The cracks in the existing concrete pavement will be milled, either partial or full depth depending on their severity, and filled with latex modified concrete. Access to driveways will be maintained at all times, but delays may occur. We ask for your patience during this construction project. Please excuse the inconvenience.

Additional information, including project updates and frequently asked questions, can be obtained from our website: http://www.hrc-engr.com/project_sites/wixom

If you have any questions and/or concerns during construction, please contact:
