The City of Wixom 2010 Road Maintenance Program Sibley Court

As part of the City's annual road maintenance program, road repairs will be made on Sibley Court. This work is scheduled to begin in early June and completion of the roadwork is anticipated before Labor Day. The work will consist of removing and replacing the existing asphalt pavement and base material, with limited curb & gutter repairs and minor storm sewer improvements. Some minor work will also be done on the existing sanitary sewer manholes. 2-way traffic will be maintained at all times, but delays may occur. Some driveways may be closed temporarily as repairs are being made. We ask for your patience during this construction project. Please excuse the inconvenience.

Additional information, including project updates and frequently asked questions, can be obtained from our website: http://www.hrc-engr.com/project_sites/wixom
