

Any resident interested in having their driveway reconstructed from the public right-of-way (roughly the back of sidewalk) to their house, can contact Tom Marcucci with Marcucci Construction. Marcucci Construction is not associated with the 2010 Road Maintenance Program, but they have agreed to complete the driveway work on private property, as requested by residents, for the same cost provided by Cadillac Asphalt's subcontractor. Marcucci Construction will also replace the mainline sidewalk identified by City staff as needing repair, if the resident does not wish to take advantage of Cadillac Asphalt's subcontractor as part of the 2010 Road Maintenance Program.

Please note that any agreement made between a private resident and Marcucci Construction will be between those two parties. The City of Wixom, or HRC, will not be involved with the negotiation, execution, supervision, or administration of this private work which is outside the scope of the City's 2010 Road Maintenance Program.

The costs for sidewalk and driveway replacement that Cadillac has provided as part of the 2010 Road Maintenance Program are as follows:

- Sidewalk Replacement - \$3.50 / square foot. This will include removal and disposal of the existing sidewalk, excavation, placement of four inches of class II sand, and placement of four inches of concrete.
- Driveway Replacement - \$5.00 / square foot. This will include removal and disposal of the existing driveway, excavation, placement of four inches of class II sand, and placement of six inches of concrete.

If a resident chooses to have either of the above work items completed by Marcucci Construction, the resident or Marcucci Construction will also be responsible for obtaining a permit from the Wixom Building Department. The permit fee is \$66.00, and this will cover the cost of the permit, administration, and the inspection fees. This permit is required only if the work is being completed by Marcucci Construction; any work done by Cadillac Asphalt or its subcontractors as part of the 2010 Road Maintenance Program will not require a permit.

Marcucci Construction's contact information can be found below. **All requests for driveway repairs on private property should be made to Marcucci Construction. Do not contact Cadillac Asphalt, the City of Wixom or HRC to coordinate/schedule this extra work.** Please contact Deanna Murphy at the City of Wixom DPW if you have any general questions about the program.
