

# FUNDING OPPORTUNITIES

## IS YOUR COMMUNITY MISSING OUT ON FUNDING SOURCES?

Hubbell, Roth & Clark, Inc. (HRC) has been very successful in helping our clients secure funding for projects via stimulus grants, economic development grants and loans, state revolving funds, and other public and private sources.

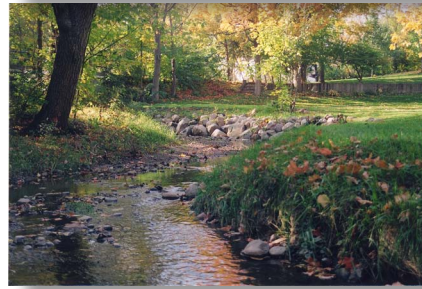

From 2009 to 2011, HRC assisted clients in securing over \$100 million for projects, many of which couldn't have gone forward without this assistance.

HRC funding specialists are available to assist with funding opportunities for a broad range of infrastructure improvement projects, including:

- Transportation (STPU, Cat. A&C, CMAQ, TE, Safety)
- Water (DWRP)
- Wastewater (SRF)
- Green Initiatives (GLRI, NFWS, RRNWWDP, SWQIF, CMI, EPA, GLCSESC)
- Energy & Alternative Energy (EDG)
- Economic Development (CDBG)

HRC has also obtained assistance for communities through the Federal Emergency Management Agency's Hazard Mitigation Grant Program.

HRC has the expertise to prepare funding applications, and can provide advice on each funding source as well as useful strategies for successful applications.

**HRC'S DESIGN EXPERTISE = MORE FUNDING**  
**CONSTANTLY TRACKING GRANTS & FUNDING DEADLINES**
