Macomb County Department of Roads Macomb Orchard Trail Project Recognized with Award of Merit for Recreational Projects

Hubbell, Roth & Clark, Inc. (HRC) provided design, construction engineering, and testing services for the Macomb Orchard Trail Project for which the Macomb County Department of Roads recently garnered an Award of Merit for Recreational Projects, presented by the Asphalt Association of Michigan and the Michigan Department of Transportation at their annual award event. John Niemela with the County Road Association of Michigan; Jeff Bukoski, Project Foreman, Ace Asphalt; and Robert DeFrain, P.E., Project Engineer, HRC, accepted the award on behalf of Macomb County. This new 10 mile long trail is constructed atop an old railroad bed and was recognized with high scores on overall appearance, ride, texture, transverse joints and difficulty. A true harbinger of spring...be sure to visit the trail and enjoy your ride...

Hubbell, Roth & Clark, Inc. is a full service engineering firm that can assist you with the road, bridge, and parks and recreation projects in your community. For more information, please contact Keith McCormack, P.E., at (248) 454-6348 or kmccormack@hrc-engr.com.
